Sustainability Can Only Be Achieved in Collaboration

The fundamental principle of sustainability has always played a role at our company since its founding in 1945. Within the Eppendorf Group, our goal is to continue to grow and develop so that we do not exceed the bounds of our planet's resilience now or in the future, and to ensure that our actions are aligned with society's needs.

To achieve sustainable business activities, we identified eight key sustainability topics along our value chain. They are divided across four key strategic issues that guide our actions and activities as a responsible company:

Climate Change:

- > Reduce CO₂ emissions generated at our own production and administrative sites
- > Reduce CO₂ emissions arising at the customers' end as a result of the use of our products

Social Compliance:

- > Ensuring that our suppliers uphold fair labor conditions

Natural resources:

- > Prevent waste arising as a result of the use of our consumables
- > Minimize waste arising as a result of our packaging
- > Reuse and recycle resources and waste arising from our business activities

Social Wellbeing:

- > Promote the safety and health of our customers during the use of our products
- > Ensure diversity and equality of opportunity at our sites and lifelong learning

Eppendorf Research® plus - Mechanical Pipette

- > Mechanical air-cushion pipette with standard 3-button operation (one operating element for volume selection, one for pipetting, and one for tip ejection)
- > Feel the difference in weight and pipetting forces: Designed according to the Eppendorf PhysioCare Concept® principles
- > Selected volume is displayed in the large 4-digit volume display
- > Enjoy minimal tip attachment forces due to a spring-loaded tip cone (available for all pipettes up to 1 mL)
- > Temporarily adjust your pipette in seconds for better accuracy when pipetting challenging liquids like ethanol or when pipetting at high altitudes. Return to factory adjustment without calibration
- > Autoclave the entire pipette or only the lower part according to your needs and applications to ensure a proper decontamination
- > 3 years warranty
- > ACT®-labeled single-channel pipettes
